

**ALEKSANDR TUCHKOV,**  
**INDEPENDENT CONSULTANT,**  
**SOFTWARE&HARDWARE ENGINEER**

+7(926)303-37-26, mail@tuchkov.org  
<http://tuchkov.org>

<b>Professional Profile</b>	<ul style="list-style-type: none"><li>• During last 8 years I've been solving problems in software&amp;hardware development. Most often I create solutions for my clients as an independent consultant and engineer. I help to create automation systems, monitoring systems, desktop, mobile and client-server applications, server software, microcontroller-based hardware, embedded systems, robots, drones.</li></ul>
<b>Education</b>	<ul style="list-style-type: none"><li>• I graduated with honours from Institute of Cryptography, Telecommunications and Informatics in Moscow. I have an Engineer's degree in Radioelectronic Systems.</li><li>• Studied physics and mathematics as a base for all electronic systems. Then studied digital electronics and programming languages as a base for modern electronic systems.</li></ul>
<b>Professional Experience</b>	<ul style="list-style-type: none"><li>• 2008 - 2013. Federal Security Service. I worked on measurement and automation systems. During this period, I created the idea of automation of several industrial measurement processes, developed the architecture and implemented the prototype of the automation system, which delivered a large speed-up of working process. Qt/C++ and several NI and R&amp;S instruments were used.</li><li>• 2013 - present. Self-employed proprietor.<ul style="list-style-type: none"><li>◆ Most of time I work with clients on <a href="http://upwork.com">upwork.com</a>. There are a lot of finished projects there, and they are visible at my public page: <a href="https://www.upwork.com/freelancers/~01246720bb1fb3b547">https://www.upwork.com/freelancers/~01246720bb1fb3b547</a> . The entire list of my skills is constantly used there, because all projects are very different.</li><li>◆ Also I am working with PLK LLC (<a href="http://ply.ru/en/">http://ply.ru/en/</a>), where I am creating a custom monitoring and accounting system for manufacturing processes.</li></ul></li></ul>
<b>Technical Skills</b>	<ul style="list-style-type: none"><li>• C/C++, Qt/Qml, Javascript</li><li>• Python, Tornado, Django</li><li>• OpenCV</li><li>• OpenCL</li><li>• OpenGL, GLSL</li><li>• Golang</li><li>• SQL, Postgresql</li><li>• Electronics and PCB design</li></ul>
<b>Linguistic Skills</b>	Russian (native), English (intermediate)
<b>Certificates</b>	<ul style="list-style-type: none"><li>• Machine Learning by Stanford University on Coursera. Certificate earned on April 2, 2016 <a href="https://www.coursera.org/account/accomplishments/records/Y9D9LYB3E52C">https://www.coursera.org/account/accomplishments/records/Y9D9LYB3E52C</a></li></ul>
